Bidjobber.com works as a streamlined system with four major steps:

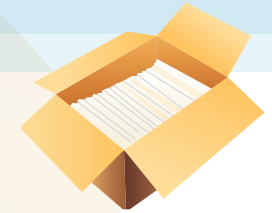

Bidjobber.com represents a breakthrough for General Contractors, Sub-Contractors, Suppliers, Service Providers and Homeowners; giving them a powerful set of tools to facilitate the bid-management process, find new work, acquire material quotes and ensure the best possible service for the best possible price.

1

General Contractors or Building Owners post their project and/or material quote requests.

2

Subcontractors, Suppliers and Service Providers are notified of a project and/or material quote request when it falls within their trade preferences.

www.bidjobber.com

3

Subcontractors, Suppliers and Service Providers view project information, plans, specs, etc. online and submit a bid or estimate.

4

General Contractors or Building Owners are notified of a new bid/estimate and select the winning bid or network with providers to discuss project details.

No commitments.

Easy to Use.

Great Results!
